

Horizon - House Sober Living

“Having my own space while being part of a recovery community made all the difference.

James 2026

***IMPORTANT NOTICE**

Horizon House Sober Living is a housing provider only. Participation does not create a provider-patient, therapist-client, or supervisory relationship.

*Your Path To
Lasting Recovery*

Why Sober Living Matters

*At Horizon House Sober Living
recovery doesn't happen alone*

After residential treatment and that safety bubble disappears, sober living becomes the bridge that keeps people grounded, supported, and accountable. Our members live in a safe, peer-driven community where everyone shares the same goal, staying sober and rebuilding a better life.

Horizon House Sober Living provides shared residential housing for adults choosing to live in a substance-free environment.

We are a housing-only recovery residence and do not provide treatment, therapy, counseling, medical care, or clinical services.

Members may independently pursue outside recovery or healthcare services of their choosing.

This is the quiet work that holds recovery together.

This is where lives are rebuilt.

This is what makes Horizon-House different.

Horizon House Is...

- A substance-free living environment
- A peer-based family style community
- With an On-site manager
- Clear house rules
- Random drug screening
- Weekly house meetings

- In 2 safe, spacious, upscale homes
- Each with a fully equipped kitchen
- Big screen Tv's - High speed internet
- Each has a pool & spa
- A shared gym
- A Rec/game room
- A meditation garden

First and foremost, we care. We don't believe in punishing, but in compassionate guidance toward positive behavioral changes. We believe in giving space—space to grow, space to learn, space to find your way.
